

prices

We make every frame bespoke to order so prices are hugely variable. We can alter elements of the frame to increase quality or reduce cost.

Currently we're developing a sliding scale price guide to help get a good idea of how much your frame might cost. Please check back here soon – we're working on it and will upload the finished guide here when it's finished.

Until then, here's a rough guide:

We have two standards of framing to choose from:

Mount Standard

Protective and stylish using framing materials and techniques that won't damage the image or accelerate natural rates of decay. Prices start at around £90, averaging at £180

Exhibition framing

Functional and well-designed, using cost-effective materials and is an ideal option for artists preparing for exhibitions. Prices start at around £35, averaging at £95
